

Autoloader™

\$6,600.00 yearly savings potential

Item No: _____

AIA FILE NO. / SPEC NO.

CONSULTANT/ CONTRACTOR APPROVAL

OPERATIONAL BENEFITS

- Reduces labor
- Reduces employee fatigue
- Reduces employee exposure to broiler heat
- Reduces heat in kitchen
- Increases hamburger production
- Eliminates patty overlapping
- Eliminates pushing or tossing patties into the cooking chamber
- Optimizes cooking chamber capacity
- Easy to remove for cleaning
- Automatic loading results in consistently cooked hamburgers

With **Autoloader™** you can place 12 frozen hamburger patties in a stack and walk away! During peak time you can load up to 36 frozen patties and walk away!

The **Autoloader™** savings summary is based on loading 36 patties 28 times per day as opposed to 1,000 patties one at a time. This eliminates the need for a dedicated broiler operator. In the real world, it is more likely that a broiler operator would load 18 patties 56 times a day, for a minimum savings of \$3,000 annually!

The **Autoloader™** will pay for itself in six to twelve months in labor savings alone.

All Marshall products are supported by a nationwide service organization and in-house, full-time Customer Support Department. To place an order call:
